

# Visions, Dreams, & Epiphanies

Prose for Posterity

by Avatierre of the Juniper Forest

*National Poetry Month each April is the largest literary celebration in the world, with tens of millions of readers, students, K-12 teachers, librarians, booksellers, literary events curators, publishers, bloggers, and, of course, poets marking poetry's important place in our culture and our lives. – According to the Academy of American Poets.*

We would like to introduce a newly published and printed book of poetry and prose. Author Avatierre of the Juniper Forest is releasing his new book *Visions, Dreams, & Epiphanies, Prose for Posterity*. This 64 page book of Prose, Poetry, and Stories features a delightful array of insight and entertainment. It is filled with touching and humorous stories intended to lighten the heart and tickle the soul.

Author Avatierre is releasing his Spoken Word into print. He has received inspiration and direction from a source beyond and within throughout his life. His poetry has channelled through him since he was a child both clearly and naturally in the spoken word. For decades, he has recited the spoken word without taking pen to paper, and now for the first time, these very unique works of art are in written form.

We are interested in bringing an engaging poetry event to your business to entertain your guests. Avatierre's expertise includes entertaining the audience with an enjoyable poetry event including the spoken word, and a book signing with *Visions, Dreams, & Epiphanies*.

If you are interested in poetry and a book signing by Avatierre at your facility, or party, please contact Avatierre at 541-419-9939 or [Author@Avatierre.com](mailto:Author@Avatierre.com) with any questions.
